## **TKT & Associates, Inc. becomes Corporate Partner to Managed Staffing** Shift from franchise further expands capacity of TKT-nectir™ Global Staffing, LLC subsidiary

**(Louisville, KY: May 2015) TKT & Associates, Inc.**—respected leader in targeted staffing and specialized talent acquisition services — is pleased to announce an important change with their wholly owned subsidiary, **TKT-nectir™ Global Staffing, LLC**.

In June 2012, TKT & Associates finalized a franchise agreement with Nectir, Inc., owned by Managed Staffing, to form TKT-nectir™ Global Staffing. Recently, as a result of TKT-nectir’s ongoing nationwide growth and success, Managed Staffing approached TKT about dissolving the franchise structure and becoming partners and as a result, TKT & Associates, Inc. became a Corporate Partner of Managed Staffing for their TKT-nectir™ Global Staffing, LLC operations.

Tierra Kavanaugh Turner remains in leadership as CEO of TKT & Associates, Inc. and TKT-nectir™ Global Staffing, LLC. Her company has offices in Louisville and Lexington, Kentucky, and retains staffing support resources in Indiana, Texas, New Jersey and Ohio.

“I am thrilled to establish this partnership with Managed Staffing,” says Kavanaugh Turner. “Our TKT-nectir™ Global Staffing resources continue to increase our ability to support existing and new clients with a more comprehensive and dynamic range of talent management capabilities.”

TKT-nectir™ specializes in cross-industry staffing, with staff focused on the process excellence and speed of delivery necessary to meet the demands of an increasingly competitive, fast-paced business environment. Through TKT-nectir™, clients of TKT & Associates, Inc. will now have access to a broader base of staffing including contingent staffing, contract-to-hire and direct-hire services. This expansion also allows TKT-nectir™ to be an employer of record when payroll is desired. Job candidates will find that TKT-nectir™ offers world-class benefits at group plan pricing, critical for attracting top talent.

Kavanaugh Turner indicates that momentum in automobile production, manufacturing, technology and healthcare continue to drive workforce growth in many industries. “As a result, competition for the best candidates will increase dramatically, making expert recruiting essential,” she stated. “Employers can expect the highest standards of speed, accuracy and efficiency to find the “right fit” for their position with our resources and TKT-nectir’s 100% performance guarantee.”
